

CALIFORNIA BIKE LAWS

This is a summary of bicycle provisions of the California Vehicle Code. Readers should check the Vehicle Codes for more detailed information and actual wording.

- 21200 Every person riding a bicycle upon a highway has all rights and is subject to all the provisions applicable to the driver of a vehicle.
- 21200.5 It is unlawful for any person to ride a bicycle upon a highway while under the influence of an alcoholic beverage or any drug.
- 21201 Bicycles must be equipped with a brake able to make one braked wheel skid on dry, level pavement.

Handlebars must not be higher than the rider's shoulders.

The bicycle must be small enough for the rider to stop, support it with a foot on the ground, and restart safely.

Every bicycle operated at night must have the following equipment:

- A lamp emitting white light and visible for 300 feet to the front and sides of the bicycle. May be attached to the bicycle or the rider.
 - A red rear reflector, which shall be visible from a distance of 500 feet to the rear.
 - White or yellow reflector on each pedal visible from the front and rear of the bicycle from a distance of 200 feet.
 - A white or yellow side reflector on the front portion of the bicycle and a white or red reflector on the rear portion of the bicycle or reflectorized tires.
- 21202 Bicycles traveling less than the normal speed of traffic must ride as close to the right as practicable, except in the following situations:
- When passing another bicycle or vehicle.
 - When preparing for a left turn.
 - To avoid hazards that make it unsafe to stay to the right.
 - When approaching a place where a right turn is authorized.

On one-way streets, bicyclists may ride as near the left as practicable.
